PROHIBITION ON REMOTE PARTICIPATION AND VOTING DURING BOARD OF EDUCATION MEETINGS

The Board of Education believes that member participation in public meetings is essential to the successful operation of the school district. This provides members an opportunity to hear all points of view, including public comment, and to experience the climate in which the discussion takes place.

Therefore, the Board of Education will not permit member participation or voting by any remote means, including telephone conferencing.

Adopted: 19 September 2000
